

ECOSOL

Growth Catalyst. Forging Futures.

Company Profile

**Catalysing Growth.
Forging Futures.**

CEO Biography

Ms. Nkadimang started her career in corporate SA, working for financial services companies such as HSBC, Nedbank, and Santam in the HR discipline. Jane later ventured into the telecommunications sector and launched an MVNO, Bayede Mobile, in partnership with King Goodwill Zwelithini. She also became the Executive Director of an engineering business specialising in the maintenance of Cellphone Towers. Within the mining sector, she is currently a majority shareholder and Executive Director in the mining services company Ditiro Mining and Engineering, with Anglo American Kumba and Kolomela being major customers. Through the company she also owns mining permits and prospecting rights for Iron Ore, Manganese and Copper.

As a Social Entrepreneur, Ms. Nkadimang, through her NPC, initiated the NC Small-scale Miners programme in partnership with the NC Premier's Office, NC Department of Women, Youth & Persons with Disabilities, and Department of Mineral Resources and Energy.

She recently completed a Masters in Business Administration, and postgraduate business studies including PG Dip Corporate Governance and PG Dip Business Project Management through Monash University and University of Cape Town respectively

Jane Nkadimang
CEO of Company

About **Company**

We work collaboratively, providing personalised attention and data-driven insights to help our clients overcome challenges, seize opportunities, and achieve their strategic objectives.
Your success is our ultimate measure of success.

ECOSOL is a specialist management consulting firm dedicated to supporting the unique needs of startups and emerging companies within these dynamic industries. We understand the challenges faced by new ventures – from securing funding and navigating regulatory hurdles to scaling operations and achieving profitability. Our team of experienced consultants brings a blend of strategic acumen, operational expertise, and a deep understanding of these critical sectors to help our clients not just survive, but thrive.

Vision & Mission

Catalysing Growth, Forging Futures: Strategic Guidance for Startups and Emerging Leaders in Telecom, Renewables, Fintech, and Mining

■ Vision

To be the trusted partner and catalyst for innovation and success in Africa's rapidly evolving telecom, renewable energy, fintech, and mining ecosystems.

■ Mission

To empower startups and emerging companies with strategic insights, operational excellence, and sustainable growth solutions, enabling them to navigate complex landscapes and achieve market leadership.

Core Values

Innovation: *Fostering forward-thinking solutions and embracing new technologies.*

Integrity: *Upholding the highest ethical standards and transparency in all dealings.*

Impact: *Delivering measurable results and sustainable value.*

Expertise: *Providing deep industry knowledge and specialised skills.*

Collaboration: *Partnering closely with clients to co-create tailored solutions.*

How We Work

Unlike generalist consulting firms, our focused expertise in telecommunications, renewable energy, fintech, and mining allows us to provide highly relevant and actionable insights.

1 Startup & Emerging Company Focus

We tailor our services to the specific scale, resources, and growth trajectory of nascent and developing businesses, providing agile and cost-effective solutions designed for rapid scaling and impact.

2 Local & Regional Expertise

Based in Sandton, Gauteng, we possess a profound understanding of the South African and broader African market dynamics, regulatory environments, and investment landscapes within our target industries.

3 Holistic Approach

We offer end-to-end consulting, from strategic planning and market entry to operational optimisation and financial advisory, ensuring comprehensive support.

4 Actionable Outcomes

Our focus is on delivering practical, implementable strategies that yield tangible results and long-term value.

Our Services

Our services are designed to address the critical needs of startups and emerging companies across the telecommunications, renewable energy, fintech, and mining sectors. We categorise our offerings into the following key areas:

Management Consulting

- Streamlining processes, optimising workflows, and implementing best practices to enhance productivity and reduce costs.
- Guiding organisations through periods of significant transition, ensuring smooth adoption of new strategies, technologies, regulations, or structures.

Human Capital & Organisational Development

- Developing strategies to attract, hire, and retain top talent, including employer branding and succession planning.
- Structuring organisations for optimal performance and scalability, particularly for fast-growing startups.

Strategy Consulting

- Identifying new market opportunities, developing market entry plans, and formulating strategies for sustainable business expansion.
- Conducting in-depth analysis of market trends, competitor landscapes, and industry dynamics to inform strategic decisions.

Marketing Consulting

- Crafting compelling brand narratives, defining brand identity, and positioning brands for maximum impact in the market.
- Designing effective Go-to-Market strategies for launching new products or services and reaching target audiences efficiently.

Why Choose ECOSOL

We are recognised for our innovative solutions, unwavering commitment to client success, and ability to foster transformative change in organisations. Our expert team combines deep industry knowledge with practical, actionable insights to deliver sustainable results.

■ Expert Team

Our consultants possess extensive experience and specialised knowledge across diverse industries and functional areas.

■ Tailored Solutions

We understand that every business is unique. We provide customised solutions that address your specific needs and challenges.

■ Results-Oriented

Our focus is on delivering tangible, measurable results that contribute directly to your bottom line and long-term success.

■ Collaborative Approach

We work closely with your team, fostering a partnership built on trust, transparency, and shared objectives.

■ Innovation

We stay abreast of the latest industry trends and technological advancements to offer cutting-edge solutions.

Thank You!
